

Riesling

2012

The Riesling is often referred to as one of the most noble white wine varieties. Although some other grapes may also reach its tremendous qualities, top Riesling wines are without any doubt among the very best white wines of the world. Around Lake Neusiedl the Riesling can be found everywhere but generally to a much lesser extent than other grapes. The wines however reach outstanding qualities in this area. They typically develop a particular rich floral bouquet and always offer an appealingly structured acidity, even in warm years.

Tasting Notes: Bright yellow colour. This Riesling offers a charmingly fruity nose with peach flavours and slightly spicy notes as well. On the palate it's powerful with distinct acidity, a balanced body and a long finish.

Food Suggestion: Perfect for vegetable dishes, light meat as well as to a cold buffet.

Aging Potential: 3 years

Drinking Temperature: 12 ° C

Alcohol content: 12.5 % vol **Sugar Content:** 1.8 g/L **Acidity:** 6.6 g/L

Gracile perfection like the dragonfly.

Dragonflies are amazingly artistic flyers humming all over the vineyards throughout summer, even on the hottest days. If you just hold out a finger pointing upwards and wait for a short while, one will quite possibly land on it. Then you can admire it from a close distance and enjoy its marvellous sight.
