

Riesling

2013

The Riesling is often referred to as one of the most noble white wine varieties. Although some other grapes can also reach its tremendous qualities, top Riesling wines are without any doubt among the very best white wines of the world. Around Lake Neusiedl the Riesling can be found everywhere but generally to a much lesser extent than some other vines. The wines do however reach outstanding qualities in our area just as well. They typically develop a rich flowery bouquet and always offer an appealingly structured acidity, even in warm years.

Tasting Notes: This Riesling offers an intensely fruity nose reminiscent of peach flavours and delicate spicy impressions. On the palate it's powerful with distinctive acidity and has a balanced body with a lasting finish.

Food Suggestion: Perfect for vegetable dishes, light meat as well as to a cold buffet.

Aging Potential: 4 years

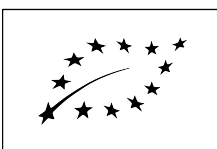

Drinking Temperature: 12 ° C

Alcohol content: 12.5 % vol **Sugar Content:** 4,6 g/L **Acidity:** 6.7 g/L

Gracile perfection like the dragonfly.

Dragonflies are amazingly artistic flyers humming all over the vineyards throughout summer, even on the hottest days. If you just hold out a finger pointing upwards and wait for a short while, one will quite possibly land on it. Then you can admire it from a close distance and enjoy it's marvellous sight.
