## Zweigelt 2019

Zweigelt is an indigenous Austrian grape and nowadays probably the most important of all our reds. In the early 20<sup>th</sup> century, our family was among the first who planted these then new vines in Gols, the present Zweigelt capital of the world. This allows us to look back on many great vintages and gave us decades of experience with this fine grape that we are very fond of.

NEUSIEDLERSEE DAC stands for a Zweigelt that is just at home here. Soil, climate and winemaking experience together form an authentically styled, likeable-fruity wine that is characteristic for the grape as well as the Neusiedlersee growing region.

### Tasting Notes:

Our NEUSIEDLERSEE DAC shines red-violet in the glass. The bouquet shows playful cherry aromas and on the palate it is fine fruity, mild and very harmonious. Simply a typical representative of a Zweigelt from the Neusiedlersee wine region.

### Food Suggestion:

Zweigelt is served to many meat or noodle dishes, in quiet moments and whenever you feel like it.

### Aging Potential:

Reaches its optimum about one to two years after the harvest. Can be easily kept for 4 or more years.

### Drinking Temperature:

17 ° C

Alcohol Content: 12.5 %vol

Sugar Content: 3.4 g/L

Acidity: 5.2 g/L

Distinctive and majestic like the stork.

The stork is without any doubt the unofficial heraldic animal of the Burgenland. Storks are an impressive sight on ground as well as in the air. Quite often they can be seen nearby while working in the vineyards. They hunt for worms and mice and because nobody would think about harming them, they have become less shy over time. It does sometimes happen that a stork lingers very close to people or machines and just minds its own business without being disturbed at all.
